Impress your guests, with the most efficiency

Philips Hospitality LCD TV

With this modern and energy efficient Hospitality LCD TV, you can enjoy all the benefits of digital television. The small screen is ideally suited for prisons, hospitals and smaller hotels.

Advanced hotel features and future proof

- Installation menu locking
- Ideally suited for prisons
- One combined channel list for Analogue and Digital channels

Differentiating guest experience

- Additional headphone connection for personal listening
- Advanced EPG and channel list
- Enjoy photo and music playback via USB

Sustainable and safe

- Low power consumption
- Eco-friendly design and flame-retardant housing

PHILIPS
sense and simplicity

Highlights

PrisonMode

To control communication, this Hospitality TV is equipped with a specific PrisonMode setting. This Advanced Security Mode switches off certain settings not needed by the detention market, like Teletext, Electronic Programme Guide, Subtitles and USB ports.

USB for photo and music playback

The USB connector allows access to jpeg photos and mp3 music of most USB-sticks

(USB memory-class device). Plug the USB into the slot at the side of the TV and access the multimedia content using the easy on screen content browser. You can now view and share your photos and music.

Advanced EPG and channel list

The attractive EPG and channel list include intuitive buttons with clear guiding graphics to easily locate your favourite channels.

Eco-friendly design

Sustainability is integral to the way Philips does business. Philips TVs are designed and produced according to our EcoDesign principles aimed at minimising overall environmental impact, through lower power consumption, removal of hazardous substances, lower weight, more efficient

packaging and better recyclability. Philips TVs also have a special housing of flame-retardant material. Independent tests carried out by emergency fire services have shown that whereas TVs can sometimes intensify fires caused by external sources, Philips TVs will not contribute to a fire.

Energy

For many years Philips has pro-actively been working on energy efficiency. As a result, most Philips products have achieved green energy labels. The greener the label, the lower the energy consumption, the lower your energy bill and the friendlier for the environment.

Specifications

Picture/Display

- Diagonal screen size: 19 inch / 48 cm
- Aspect ratio: 16:9
- Display screen type: LCD WXGA+ Active Matrix TFT
- Panel resolution: 1366 x 768p
- Brightness: 250 cd/m²
- Response time (typical): 5 ms
- Picture enhancement: Digital Crystal Clear
- Dynamic screen contrast: 30.000:1
- Viewing angle: 170° (H)/160° (V)

Tuner/Reception/Transmission

- Aerial Input: 75 ohm coaxial (IEC75)
- Number of Pre-set Channels: 999
- Tuner bands: Hyperband, S-Channel, UHF, VHF
