LG
Life's Good

Value-added hotel service

The best choice for

ProCentric® V

VALUE

We provide the best solution for the best service to increase your hotel's value.

VARIETY

We provide various experiences and convenient features to add more variety to your hotel's service.

VISION

We provide efficient management to show the vision of your hotel's success.

ProCentric®V

How can customers easily enjoy a variety of room services with a single remote, while the hotel maximizes both cost-savings and customer satisfaction?

The answer is ProCentric®V, which is integrated into LG Hotel TV. With the service based on the Radio Frequency (RF), LG Hotel TV can establish a system simply by connecting cables, making itself a comprehensive solution for display. Although neither a set-top box nor an extra IP network is necessary, LG Hotel TV has the same effect as if they were set up, so the economic efficiency is excellent.

Benefit Point
3 NO!
3 YES!

NO

- ☒ You do not need to **invest in establishing an extra infrastructure**.
- ☒ You do not need a **Set-top-box(STB)**.
- ☒ You do not need to **provide guests with paper based hotel information**.

YES

- ☑ You **can upgrade your service** using existing infrastructure.
- ☑ It has excellent **space efficiency** and **total cost of ownership saving effect.**
- ☑ The more **value-added information and service** can be provided with **easy management.**

With the Pro:Centric®V hotel TV management solution, you can customize the guest experience quickly and easily. The collection, which includes a wide range of display screens and a server, is simple to install, simple to use for both hoteliers and guests.

Service only possible with **LG Hotel TV**

Easy Management

Pro:Centric®V solution brings easy management solution to control the TVs remotely and effectively. Without extra investment for management software, TVs can be managed and controlled in the centre of the hotel with ease. From automatic network setting on TV to diagnosis function, all easy management functions are coming along with LG Hotel TV.

Easy Editing & Contents Creation

The program and contents can freely be configured to match your hotel's style and the customer's tastes, and this has a synergy effect on establishing your own service structure. Even Hoteliers can also easily edit and effectively set the programs and contents in case changes are required.

Total Cost of Ownership Saving

Hoteliers no longer need to visit the room in person because they can control remotely. Without extra set-top-box, LG Pro:Centric TV can still provide premium hotel contents while saving the cost for labor, interactive solution system including set-top box and all required time. Over time, total cost saving effect from reduced unnecessary workload and no extra investment becomes more measurable while productivity increases.

Eco Friendliness

Because the entire system has been designed to maximize energy efficiency, LG Hotel TV has excellent energy saving effects. Not only does it have economic advantages in terms of managing a hotel, but it also realizes the future-oriented value.

Guest Experience

With a single installation of a TV, customers can enjoy a variety of TV programs and use their own portable devices by easily connecting them to the TV. Furthermore, the swivel stand lets the customer watch from any comfortable position, and they can even hear the sound from the bathroom. The customer-oriented functions can give a good impression and make potential guests want to visit again.

Main Welcome Portal

Pro:Centric®
Information Generator(PCS150R)

Pro:Centric® Application

The easiest and most convenient way to manage Hotel TVs at lower expense, Pro:Centric® Information Generator and its easy editor resolves the hotelier's main concerns about management and maintenance costs. With the combination of Admin Editor software, Pro:Centric Information Generator, and Pro:Centric TV, interactive-alike functionality is provided without the need for a separate set-top box.

Channel Guide

Simple Channel List :Select the channel logo to watch your selected TV program

Remote Help

Learn how to use the Remote controller with easily accessible menu on TV

Language

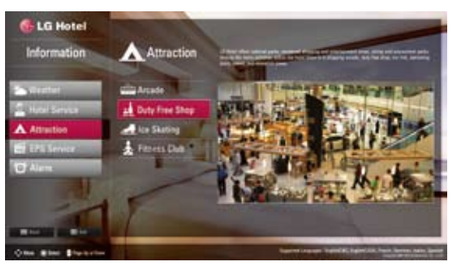
Access the system in multiple languages for international guests from various nations

Wake up time

Alarm function allows you to set the wake up time

Weather

Obtain local weather forecast, including map that is updated regularly with AccuWeather service



Information

Obtain hotel information and also local tourist attraction information

***Note.** These formats above can be modified for a customization purpose with administrator client program in Pro:Centric Information generator.
