Pro:Centric HOTEL MANAGEMENT SOLUTION
* Image shown is for illustrative purpose only.

Pro:Centric Direct

The hotel content management solution Pro:Centric Direct offers easy and simple editing tools, making it easy to perform service and IP network-based remote management. The Pro:Centric Direct solution enables users to easily edit their interface by providing a customized interface and efficiently manages TVs in the rooms. The current PCD version provides IoT-based in-room control as well as a voice control function through LG Natural Language Processing (NLP). These IoT and voice-related functions will be your starting point to prepare for the hotel rooms of the next generation through artificial intelligence.

* Some devices may have limited compatibility with the IoT and Voice Control function.

VALUE ADDED FEATURES

Voice Recognition

From seamless interaction to consistent user experience, LG is going one step further to lead the commercial TV market by including voice recognition, allowing users to easily control LG TVs. Our stable and dependable solutions based on webOS and Pro:Centric Direct will significantly enhance the competitiveness of our products and services, helping you achieve a successful business in the future.

* Magic Motion Remote is required (sold separately)

More Innovative LG webOS 5.0

Explore the latest LG Smart TV features. Newly added Mood Display & Gallery modes enable you to utilize the TV as a customized clock and a piece of artwork which harmonizes with your space and life.
