

# SOUNDOG® INTERACTIVE TRANSMITTER

The Sounddog Interactive Transmitter works in a multi-television environment to provide digital interaction, offers, messaging and sound through your guests smartphone.

The Sounddog Interactive Transmitter engages your guests in your establishment by hearing any TV program being viewed and sending them offers right at the table.

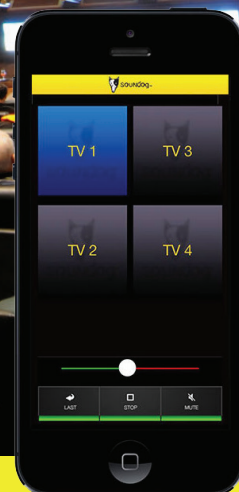

Guests simply logon to the Sounddog network, scan the Sounddog QR code and download the free mobile app and they are off and running with Sounddog Mobile, unleash your audio and engage the audience!
